Sir:

AMENDMENT

In reply to the Office Action dated January 7, 2003, please amend the application  
as follows:

IN THE CLAIMS:

Please amend claims 69-72, 90, and 91 to read as follows:

69. (Amended) A delivery catheter, comprising:

an elongate tubular body having a proximal end and a distal end and a lumen  
extending between the proximal end and the distal end;

an anchoring member mounted proximate the distal end of the tubular body; and

a steering member mounted proximate the distal end of the tubular body at a  
position distal to the anchoring member, the steering member being configured to  
cooperate with a body lumen of a patient to turn the distal end of the catheter.
